Subject: Tau Beta Pi Computers

I thought I'd resend the spec's on the PC's for the convention -- just in case.

Here's the info you requested on the 6 machines for the Tau Beta Pi Convention.

Pentium 200
32 MB RAM
2 GB HD
15" Monitor
Video card capable of at least 800x600 at 16 bit color
3.5" floppy
CD-ROM (speed not important)
Keyboard
Mouse
Win98 (Win95 would do)
Office97
Lotus Office Suite
Netscape Communicator 4 (I can load this if it makes it easier on you)
V.90 modem or 56Kflex (needed on 2 machines only)
10baseT Ethernet Card with BNC connector

You can use me as the contact for this (my contact info is in my signature file at the end of this message).

As far as dates go, lets try to get the machines here by October 1st, and I'll plan to ship them back to you on Wed. October 14th.

Thank you for your help!
